Computer Science Project Weekly Progress Report

Surname	Kalegana Koralege
Given Names	Pawani Gayasha
Student ID	23246269
Master/Major	Master of Computing Majoring in AI
Supervisor	Associate Professor Sajib Mistry
Project Title	Content Media Authenticity – Secure video Verification
Group Number	2
Reporting Week	**Week From 17/04/2026 To 23/04/2026**

What is your own assessment of your progress this week?

Excellent	Good	Fair	Poor	No Progress
	√			

Breakdown of the time spent on the project for this reporting week (add more rows if needed). If you are part of a team, be specific to what you actually did.

Activity	**Number of hours (indicative)**
Project discussion with team members	2
Implementation planning — finalised the detailed step-by-step coding plan for the AI pipeline covering the metadata extraction script, feature vector construction, Isolation Forest training, and verification engine; mapped out the specific Python functions, input/output formats, and data structures required for each component	2
Researched further about the Isolation Forest Algorithm	1
TOTAL	5 (hours)

Note that as per the unit outline, you are expected to spend at least 8 quality hours per week on this project unit, very much like any 25-credit unit you are studying.

Highlights of the achievements made this week:

- Attended the project discussion with team members, discussed the revised plan to recover the project schedule over the remaining weeks of the project.
- Completed a detailed implementation plan for the full AI pipeline, mapping out the specific Python functions, input/output formats, and data structures for each component, including metadata extraction, feature vector construction, Isolation Forest training, and the verification engine.

Further details to report to your supervisor, please include any concerns you may have:

None
