Highlights of the achievements made this week:

- Highlight 2: Added and highlighted all in-text citations for the AI sections of the combined methodology document in Chicago author-date style, covering the five key references for Isolation Forest, ffmpeg, FaceForensics++, Celeb-DF v2, and model bias ethics; compiled the corresponding reference list entries for my section.
- Highlight 3: Coordinated with the team to consolidate all proposal sections, confirmed the individual contributions table and task split, and reviewed the complete proposal document ahead of submission.
