Computer Science Project Weekly Progress Report

Surname	Kalegana Koralege
Given Names	Pawani Gayasha
Student ID	23246269
Master/Major	Master of Computing Majoring in AI
Supervisor	Associate Professor Sajib Mistry
Project Title	Content Media Authenticity – Secure video Verification
Group Number	2
Reporting Week	**Week From 10/04/2026 To 16/04/2026**

What is your own assessment of your progress this week?

Excellent	Good	Fair	Poor	No Progress
		√		

Breakdown of the time spent on the project for this reporting week (add more rows if needed). If you are part of a team, be specific to what you actually did.

Activity	**Number of hours (indicative)**
Literature review and group meeting — reviewed existing deepfake detection papers to strengthen understanding of metadata forensics approaches and reinforce the project's research foundation; attended group meeting to discuss the current delay in implementation progress and agreed on a revised plan to begin coding.	2
Dataset research — Reviewed the FaceForensics++ dataset structure, file organisation, and the research access application process.	2
Implementation research — researched how to invoke ffprobe from Python.	1
TOTAL	5 (hours)

Note that as per the unit outline, you are expected to spend at least 8 quality hours per week on this project unit, very much like any 25-credit unit you are studying.

Highlights of the achievements made this week:

- Attended group meeting to discuss further progress. Discussed beginning the metadata extraction script and environment setup.
- Reviewed the FaceForensics++ dataset structure and access process, and reviewed existing deepfake detection literature to reinforce the theoretical foundation of the metadata forensics approach and confirm the project direction remains well-grounded in current research

Further details to report to your supervisor, please include any concerns you may have:

None
